ABSTRACT

All recent issues of periodicals found which contain indexed book reviews are listed in this compilation from Drake Memorial Library at the New York State University at Brockport. The periodicals are listed by 29 subject headings in this informal guide designed to be used at Drake Library. The number of reviews in the periodical in a recent year is followed by the title of the periodical, Drake Library holdings, and an indication of an annual index or the frequency of publication. BOOK REVIEWS IN PERIODICALS

A Classified List

In locating reviews of a book, one goes first to book review indexes. If they fail the next step is periodical indexes. Since many periodical indexes do not include book reviews, the third logical step, albeit a tiresome one, is to go to the periodicals themselves. The list following is an attempt to make that third step less tiresome.

The list is an informal guide, done as a spare time project. You are therefore enjoined to correct, but not cavil at, error.

The scope is simple: all the periodicals we could find that include a fair number of book reviews and that either index them annually or, if they do not, are published infrequently enough to permit a quick browsing of them for any given year.

The periodicals are arranged by subject. The number of reviews in a recent year of the periodical is followed by the title of the periodical, Drake Memorial Library holdings, and an indication of an annual index or, if there is no index, the frequency of publication of the periodical.

We invite any additions, corrections, or comments you may have. These will help expand, correct, change, or possibly cause the demise of this list. Please direct communications to Mr. Ettelt at the library.

One caveat before we go: The information included is based on recent issues; and periodicals are notorious for policy changes. Therefore, one cannot count on the information being applicable either retrospectively or in the future.
